

# THE DATA RELATIONSHIP

Findings from the JA TEHDAS Healthy Data consultation

# The e-consultation Healthy Data

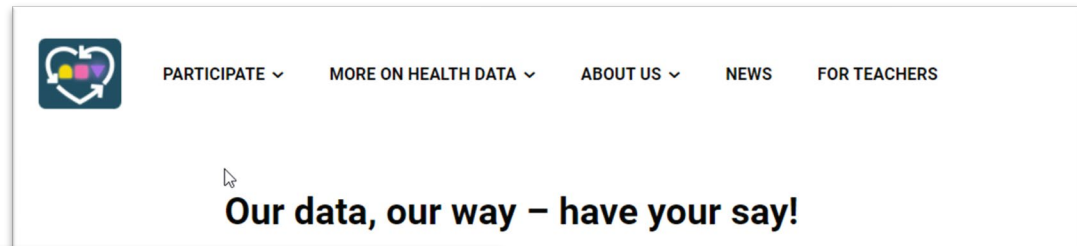

## Inform, Deliberate, Produce

### What can Robert's data be used for?

The data that was accumulated during Robert's diagnosis and treatment can be useful for other purposes.

Scientific research proved that the treatment Robert received is effective, so the **healthcare system** reimburses it. Researchers keep monitoring the treatment's effectiveness by assessing it in other recent cases.

### Our data, our way – have your say!

...ital, they collect data about us, our health and our lifestyle. The national  
e the best clinical care for us, but did you know that this data can also be  
vices through research and planning?

? Under which conditions should it be reused? Have your say! Complete  
ser you are and what this means for our society.
