Context: Paradigm shift in healthcare delivery

From	To
<ul style="list-style-type: none"> • Supply-driven care • Fragmented healthcare • Silo-organization • Monodisciplinary • Passive client • Cure • Sickness and cure • Input • Facility centric (institutional/residential) 	<ul style="list-style-type: none"> • Demand-driven care • Care continuum • Comprehensive organization • Multi-/pluri-/transdisciplinary • Activated, engaged and empowered client • Prevention, cure and care • Health and behaviour • Outcome • Patient centric (home- and community based)

5

Alivia is...

► ... a digital tool to promote **goal oriented and integrated care**

Innovative!

1. Patient in control
2. Informal caregiver as equal partner
3. Social care included
4. Interdisciplinary careplanning
5. Transparant communication

Vlaanderen is zorgzaam en gezond samenleven

6

Co-creation

- ▶ Preparation 2018-2020
 - Business analysis
 - Academic research goal oriented care
 - Interviews with all sectors
- ▶ Working groups (monthly)
 - Stakeholder: care organizations, (professional) care givers, other policies
 - Requirements diff. modules & methodology
- ▶ Webinars (quarterly)
 - Demo & latest news
- ▶ Academic support and validation for care planning (in Alivia)

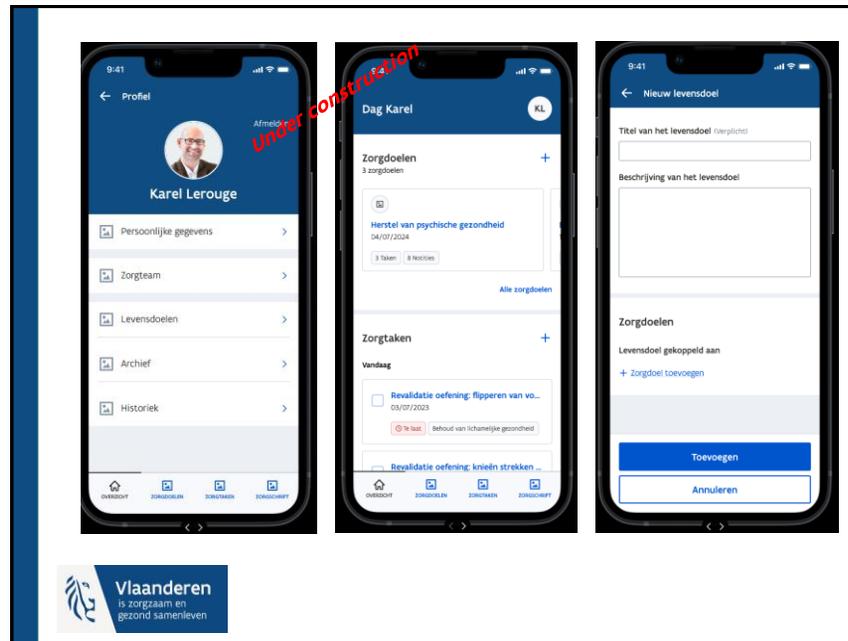

7

Minimum viable product

8

9

Pilots Alivia

- ▶ 2 pilot regions
 - Antwerp and SW-Flanders
 - 6 months
 - Start Q1 2024
- ▶ Scope: 40 patients with care team (+ care giver) in intensive home care situations and palliative care
 - Complexity
 - Need for care planning
 - Interdisciplinary teams
- ▶ Challenging the tool, fixed eco-system, role defining and education
- ▶ Maximal learning from **users** regarding technical and methodical output

Next Steps

- ▶ Iterative development process
- ▶ Work in transition in all facets
- ▶ Challenge future:
 - Coordinating all facets towards the heart “goal oriented care”
 - Defining and enabling funding mechanism, regulation and recognitions

 Vlaanderen
is zorgzaam en
gezond samenleven

Flanders and Belgium in transition

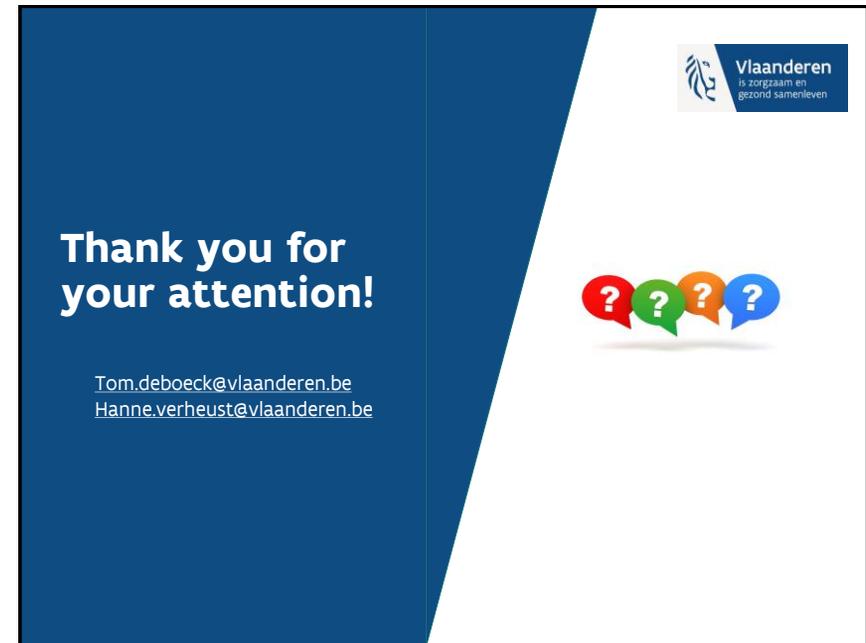

- ▶ Next to Alivia:
 - BelRAI
 - Flemish Social Protection
 - Care Atlas
 - Caring neighbourhoods
 - Primary care zones
 - Palliative care reform
 - Interfederal trajectories
 - Care coordination
 - Case management
 - ...
