Collaborating for Digital Health and Care in Europe

# EHTEL – mission and vision

- ***Vision:***

- Dedicated to looking ahead over a ten-year period to 2029
- Creation of innovation in the delivery of digital health and care solutions
- Transformation of health and social care

- ***Aims and purpose:***

- To act as a pan-European multi-disciplinary organisation
- To explore the benefits, challenges, and opportunities brought by digital health in health and care
- To engage in strategic and relevant collaborations with many different stakeholder organisations

- ***Mission:***

- To support European initiatives and policies
- To provide expert advice, educational services, and insights
- To support European projects
- To provide a networking platform for all sorts of stakeholders

*“The best way to predict the future is to invent it”*

# “Imagine 2029: our data, our health, our care”

## From a long term perspective to a short term one

*Over the coming two years, EHTEL will invite its Members and friends to exchange experience and learn from others on a few priority topics. You, the Participants to the 20 Anniversary EHTEL symposium, are invited to express an interest in up to two of the following topics:*

1. Enabling good AI with AI literacy and AI-friendly environment
2. Fair data economy, where people receive value from the personal data they share
3. Data sharing and donating for the sake of common good (i.e. research or public health policies)
4. Contribution of social robots and other autonomous systems, in support of health and care delivery
5. Enabling integrated care through digital solutions

[www.menti.com](https://www.menti.com)  
Code 193253

*Another topic should be prioritized?*

6.
