Wegiz

Wet elektronische gegevensuitwisseling in de zorg
The Wegiz law contributes to

- Less errors
- Decrease of avoidable admissions
- Easing administrative burden
- More job satisfaction caregiver
- Investments pays off

Better healthcare
What the Wegiz law does and doesn’t cover

The law covers:

- That data is exchanged
- How it is exchanged
- That data exchange takes place electronically and in a standardized manner

The law doesn’t cover:

- WHICH data is exchanged and which requirements apply
- IF information can be exchanged (access and permission)
- Exchange with patients (party via added amendment)
